

T. S. ELIOT (1888 - 1965)

Biography

Thomas Stearns Eliot was an American-English poet, playwright, literary critic, and editor. He was a leader of the modernist movement in poetry.

Eliot was descended from a distinguished New England family that had relocated to St. Louis, Missouri. His family allowed him the widest education available in his time, with no influence from his father to be "practical" and to go into business. From Smith Academy in St. Louis he went to Milton, in Massachusetts; from Milton he entered Harvard in 1906; he received a B.A. in 1909, after three instead of the usual four years. In the academic year 1909-10 he was an assistant in philosophy at Harvard.

Eliot spent the year 1910-11 in France, attending Henri Bergson's lectures in philosophy at the Sorbonne and reading poetry with Alain-Fournier. From 1911 to 1914 he was back at Harvard reading Indian philosophy and studying Sanskrit. By 1916 he had finished, in Europe, a dissertation entitled "Knowledge and Experience in the Philosophy of F. H. Bradley", but World War I had intervened, and he never returned to Harvard to take the final oral examination for the Ph.D. degree. For a year, Eliot taught French and Latin at the Highgate School; in 1917 he began his brief career as a bank clerk in Lloyds Bank.

Eliot rigorously kept his private life in the background. In 1915 he married Vivien Haigh-Wood. After 1923 she was mentally ill, and they lived apart; she died in 1947. In January 1927 he married Valerie Fletcher, with whom he lived happily until his death.

Eliot exercised a strong influence on Anglo-American culture from the 1920s until late in the century. His experiments in diction, style, and versification revitalized English poetry, and in a series of critical essays he shattered old orthodoxies and erected new ones. In 1914, Eliot met and began a close association with the American poet Ezra Pound. In 1948 he was awarded both the Order of Merit and the Nobel Prize for Literature.¹
